

Mt. Washington Pediatric Hospital ATTENTION PATIENTS:

Shoppable Services List 1. The list below provides estimated costs for both facility and physician/professional services. Prices posted and effective as of January 1, 2025

2. Estimated prices indicated below reflect the prior annual average of all patients who received similar services. The base rates used for facility charges are those approved by the Health Services Cost Review Commission (HSCRC), [www.hscrc.maryland.gov](http://www.hscrc.maryland.gov).

3. We are providing you with an estimate because the actual amount of the facility and professional fees will depend on the services that are actually provided. The fees could be higher if you require services during your appointment that we cannot reasonably predict today. Check with your insurance carrier or employment benefits representative to verify your coverage. You may be responsible for one or more copays.

4. Financial help for your portion of bill may be available. If you need financial help, please contact Patient Accounting at 410-578-2614.
